SCHOOL MANNERS

School citizenship deals with conduct, manners, courtesy, and the making of impressions.

A good school citizen will always have manners in the classroom and away from his classroom.

Manners in the school are the same as in the home. For example, when we eat dinner at home we are probably quiet and we don't sing and yell and throw things. We eat our meals and maybe we help with the discussion, whatever it may be. Then when we have finished eating we excuse ourselves, then leave the table.

In the school we should go to the cafeteria quietly and get our tray and food and hurry to our seat as quickly and quietly as possible, in order that we may not cause confusion. We should sit still and eat our food and, of course, we should carry on a conversation in a mannerly way.

Manners in our school cafeteria are improving; but they can be better! Why don't we all see what we can do to improve manners in the cafeteria.

Mary Joyce Gabbard

ARE YOU A GOOD CITIZEN?

Among the many personalities every person has is that of being a citizen, wither good or bad. Every person owes some debt of gratitude to his country. The United States offers its many opportunities to every man, woman, and child regardless of race, creed, or color.

The country is only as strong as its people make it. A good citizen strives to make his or her country better, not weaker. So wouldn't a person who has prejudice against some class of people actually be weakening his country?

A good citizen will gladly and proudly offer his service to his country anytime she asks for it whether in a time of emergency or not.

Good citizens must go to church and ask the aid of god or they will find their task impossible.

There is a uniform definition that may be applied to all good citizens, but any one who lives the life of a good Christian can't help being a good citizen.

FUNNY TIME!

Me's Just Lazy
Me sit in study hall, trying to think
Too much confusion-me poems stink
Me gaze out window at pretty blue sky
Teacher glares at me out of her eye
Me get out me shorthand, take look;
Too much work-me close book.

I bought a wooden whistle; but it wooden whistle. So I bought a steel whistle; but steel it wooden whistle. So I bought a lead whistle. Steel they wooden lead me whistle. So I bought a tin whistle and now I tin whistle.

The Bear News

Oh Nuts!

A Philadelphia nut shop boasts, If our peanuts were any fresher they'd be insulting.

When the boy friend of a teenage friend of mine went to call on his girl, he found the family had been unexpectedly called out of town. The girl left a note on her front door: "Hi, handsome! Have gone to Texas. Will be back Sunday afternoon. P.S. Don't tear up this note you aren't the only one!"

When our team journeyed down to Brownsville, we had great hopes of winning our ball game there. But, they were better than we expected. The ball game was pretty well even at the beginning, but they began to pull away slowly. At the first quarter, the score was 16 to 8. The second quarter was a repeat of the first, with Brownsville still leading us. They outscored us in each quarter, at the half, the score was 35 to 10. In the third quarter, they didn't score as much as in other periods. They seemed to slacken down a little. At the end of the third quarter, the score was 56 to 32. In the final stanza, we threw the pressure defense against them, but the pressure didn't work satisfactory enough to stop them. So, we dropped the fifth game, 80 to 48. Here is the box score:

Fairview (43)					
Wilder	F	3	7	3	13

The grade team boys had themselves a swell ball game, but the Brownsville boys were best. They dropped the game, 29 to 25. They played good ball, but they just didn't play good enough. The scoring honors went again to Don Frye, with 11. But, not far behind, with 6, was Dale Gunnell. The high scorer for Brownsville was Stevens, with 10. Good luck at Kitchell. Here is the box score:

Buckley	F	5	1	5	11

As we journeyed to Kitchell, we had a feeling we were going to win this game. But, when we arrived there, we weren't as confident as we thought. But, we would give them a good fight anyhow. So, during the course of the game, things went all Kitchell's way.

They beat us, 67 to 44. The high scorer for the game was Wendell Richardson, with a big 23 points. The high scorer for Kitchell was Fred Link, who had 14 points. Here is the box score:

The junior high boys had themselves a fine night, winning the ball game, 17 to 12. This was the lowest scoring contest they had played this year. It was nip and tuck all the way. The high scorer

for Fairview and the game was Donald Frye, with 11. Frost and Bulla paced the Cowboys with 4 a-piece. Here is the box score:

Last Friday night, we went way up to Economy with the intention of beating them as we did last year. But, when we began to play, we knew different, as they were out to win also. First, Jim Wilder went out of the game with a sprained ankle in the first quarter. Then, Morris Caldwell went out in the second quarter on 5 personal fouls. Then, things began to happen. Economy caught fire and hit everything they threw at the basket. The final score was 102 to 36, the worst trouncing we had this year. The high scorer for the game was Lenegar, with a big 37 points. Wendell Richardson paced the Jackets with 15. Here is the box score:

The grade team came out on the losing end also at Economy. The final score was 42 to 28, Economy. They played good ball, but Economy played better. But just you wait till we get them on Connersville's floor, then see what happens! The high scorer for Economy and the game was McCord, with 24. Donald, Frye was right behind him with 19. The Sandusky game, as you know went to Sandusky. we tried to win

Things were all little different when we went to Sandusky. The basketball boys went to the game in cars driven by some of the boys fathers'. As we started to play, we realize that they were a little bigger then we were. So, we played possession ball, and slowed the game down to practically a standstill. But, they just were better that we were. So, we dropped the game, 79 to 38. The scoring honors went to Mucheinhiede, who had 25 poings. Wendell Richardson was high for the Yellow Jackets with 17. Here is the box score:

Merrie C. Bell and Junior Buckley
went out Monday morning to get a
tree for the school.

Many of the students enjoyed making
decorations and decorating the tree.

Every student in the school wishes
to thank these two boys for giving
up their class time to get the
school such a beautiful tree.

High-School Years

An Ann Arbor professor realized how
old he was getting when he asked
his young daughter what she was
studying. "Oh," she replied, "all
about some jerk named Hitler."

The young man filling out ahead
of me after the matinee of Macbeth
was a high-school English Teacher
and, I gathered from their conver-
sation, the half-dozen boys and
girls with him were in his class.
As we reached the sidewalk, an
attractive redhead accosted the
young man, asked him for a match
and then engaged him in conversati-
tion. His students stood in a
little knot by the curb, obviously
disapproving. With a sudden air of
decision, the prettiest of the girls
went over and interrupted the
tete-a-tete.

"Daddy," she broke in, "the taxi
is waiting."

WORD TROUBLE

"Really, Helen," he said when he
saw her for the first time in five
years, "you've changed so I would
hardly have known you."

"That's a little ambiguous," she
replied archly. "For better or for
worse?"

"Why," he said enthusiastically, "
you could change for the better, of
course!"

What Christmas Means To Me

When I was a child I could hard-
ly sleep on that famous night be-
fore Christmas "I wished the night
would end and morning arrive, so
I could rush down the stairs to
see what Santa Claus had brought
me. At that time of my life Chris-
tmas meant:

C was for candy cones
H for those happy days
R for the rows of presents
I for Icicles, long
S for dear old Santa Claus
T for that big Christmas tree
M for Merry Christmas cards
A for all My new toys
S for getting out of school!

But now I have grown a lot, and
don't think about such things/
Now Christmas means lots more.

C for the dear Christ child
H for the beautiful Herald Angel
R for the reindeer
I for Israel
S Shepherds who came to the manger
T for the three wise men
M for the manger where Christ lay
A for all He stands for
S for the stars shining bright

Around the time of Christmas child-
ren are excited, writing old Saint Ni-
and being very good. We always buy
Christmas seals for children not so
lucky as we. Of all the two sets of
Christmas one thing I forgot Christmas
means give and not to think about
receiving. Christmas is a cheery time
But I don't forget Him. Yet this is
what Christmas means to me.

Las Vegas civil defense distributed
identification "dog Tags" to the
city's school children. It was a
fine idea, except that a checkup re-
vealed that all but two high-school
girls were wearing tags which had
been issued to boys.

JOKES

My attractive blond niece was in a world of her own as we drove down an avenue in Salt Lake City. Dreamily she went through one stop sign, then another, and as I was about to remonstrate with her a police siren did the job for me.

The officer was a tall, handsome man with a soft voice and courteous manner. "Do you realize, miss," he said, "that you just drove through two stop signs?"

She looked at him with big blue eyes that have been the undoing of many a man. "Did I really?" she asked. "I'm so sorry!"

Then they just looked at each other for a moment. "You must be careful miss," he warned, "or you'll find yourself in the arms of the law."

State of Mind

A ticket clerk in an airline terminal asked a Texan, "Where to?" "Anywhere," replied the Texan. "I got business all over."

Parking is such sweet sorrow

In White Plains, N.Y. a would-be shopper complained to a police lieutenant: "Darn it, in this town I can't even find a place to park illegally."
